# UNAPPROVED PARTS NOTIFICATION

Flight Standards Service

No.: 2008-S20080411011

Date: June 19, 2008

http://www.faa.gov/aircraft/safety/programs/sups/upn

#### AFFECTED PRODUCTS

Aircraft components and instruments approved for return to service by WECO, Inc.

## **PURPOSE**

This notification advises all aircraft owners, operators, manufacturers, maintenance organizations, and parts distributors regarding improper maintenance performed on aircraft components and instruments.

### **BACKGROUND**

Information received during a Federal Aviation Administration (FAA) Suspected Unapproved Parts (SUP) investigation revealed that WECO Aerospace Systems, Inc., located at 1501 Aviation Boulevard, Lincoln, California 95648, maintained and approved for return to service various aircraft components and instruments contrary to regulations. WECO, Inc., formerly held FAA Air Agency Certificate No. UQ3R902L.

Evidence indicates WECO approved for return to service components and instruments not maintained in compliance with the manufacturer's maintenance manual or other data acceptable to the FAA. WECO failed to accomplish specified tests and/or lacked current documentation for repair or overhaul of components. Discrepancies include:

- (1) Failure to perform required manufacturer's test procedures prior to returning an article to service:
  - (2) Lack of test equipment to perform required tests;
- (3) Use of inactive, outdated, or superseded technical data to perform component repair and overhaul; and
  - (4) Use of special or test apparatus not calibrated as required by regulations.

#### RECOMMENDATIONS

Regulations require that type-certificated products conform to their type design. Aircraft owners, operators, maintenance organizations, and parts distributors should inspect their aircraft, aircraft records, and/or parts inventories for any aircraft components or instruments approved for return to service by WECO.

If you find any of these components or instruments installed on aircraft, you should take appropriate action. If you find components or instruments in existing inventory, we recommend you segregate them to prevent installation until their eligibility for installation is determined.

Below is a partial list of components and instruments that may have been approved for return to service by WECO.

# **FURTHER INFORMATION**

You can obtain further information concerning this investigation from the FAA Flight Standards District Office (FSDO) given below. In addition to the above recommendations, the FAA would appreciate any information concerning the discovery of the referenced parts from any source, the means used to identify the source, and the actions taken to remove the parts from aircraft and/or parts inventories.

This notice originated from the FAA Sacramento FSDO, 6650 Belleau Wood Lane, Sacramento, California 95822, telephone (916) 422-0272, fax (916) 422-0462.
